Human Biology Association

## 2011 Annual Meeting (Minneapolis, MN) Break-out Sessions

In 2011, the Human Biology Association will inaugurate informal Break-out Sessions on specific topics proposed by members. The sessions will be scheduled during the Wednesday (April 14, 2011) lunch hour and a specific room at the meetings venue will be scheduled for each session.

Break-out Session participants must arrange for their own lunches, as neither food nor drinks will be provided.

To facilitate attendance, the topic, organizers' names, and room will be included in the HBA Meetings Program. In order to meet publication deadlines, proposals for Break-out Sessions must be sent by **November 15, 2010**.

Proposals should be e-mailed to Program Chair, Virginia Vitzthum, at <[vitzthum@indiana.edu](mailto:vitzthum@indiana.edu)>.

Please include the following information:

- *Organizer(s) name(s) and email address(es).*
- *Topic Title*
- ***Brief** description of the specific suitability of this topic for a break-out session (e.g., rapid developments in technology that can enhance human biology research), and the planned activities during the session (e.g., brief presentation by organizer followed by open discussion).*
- *Expected attendance.*

The Program and Local Arrangements Committees will make every effort to accommodate all reasonable requests for Break-out Sessions, depending upon room availability and suitability of topic to the mission of the Human Biology Association.
